ENTITIES FOR DESIGNING THE SYMPOSIUM

*Symposium of the 17th World Congress.
Cordoba, Spain 2024*

OVPM | OWHC | OCPM Roadmap CHALLENGES

CHALLENGES

Adapting cities to the climate change and mitigating its impact

Promoting heritage as an essential resource for sustainable development

Capitalizing on the ability of historic districts to reinvent themselves

Promoting elements that contribute to the habitability of the heritage city

OVPM | OWHC | OCPM Roadmap

Why ?

The opportunity to benefit from a collective work to find new solutions and new, more efficient ways of doing things.

Collective engineering

OVPM | OWHC | OCPM Roadmap

How ?

Phase 3 – Québec Roadmap

Step 1
Conception

*Identification of priority thematic(s),
formation of “collaborative networks” and
definition of the “pilot projects”.*

Step 2
Implementation

*Put in place of the “pilot projects” by the
participating member cities.*

Step 3
Evaluation

*Gathering of the outcomes of the implemented
projects and lessons learned.*

PRIORITY THEMATICS

Québec Roadmap: Towards a New Urban Project (2022-2024)

- 1. Conception
 - 1.1 Expansion of network
 - 1.2 Priority thematic(s)
 - 1.3 Collaborative networks

WORKING DOCUMENT

This working document provides guidelines for the process of identifying the Thematics of participating cities. It also contains a Revised Table guide, a tool designed to enable cities to find the solutions that suit them best.

INTRODUCTION

This document is given as guidance and it does not suggest to bind signatories or contract, but only suggest a methodology and specify the expected deliverables. Each city must appropriate themselves of these guidelines and its objectives in order to organize and manage its own process.

The objective is to obtain from each participating city one Priority Thematic to be further developed in the framework of the Roadmap. The Thematics specify the essential or strategic concerns related to the city situation and the individual actions that they require. It is within these Thematics that the cities involved in the Roadmap will find the way to come together to share solutions, Networks and work together to find the solutions that suit them best.

PROCESS

The methodology described below is recommended to be followed by each city in order to determine their priority thematic. The prioritization process is intended to be simple, rapid, not exhaustive, and may be adapted to cities in partnership with their operational guidelines.

1. Identification and prioritization of Thematics

¹ A complete guide of the Québec Roadmap methodology is available on [Admix](#), the platform.

PARTICIPATING CITY

Indicate the name of the city to which this form corresponds.

MUNICIPAL PERSONNEL INVOLVED

	Name, title, and e-mail address
Elected official(s) <i>Appointed to oversee the strategic scope</i>	
Interservice coordinator(s) <i>Appointed to oversee the administrative scope</i>	
Other(s) <i>(optional)</i>	

DESCRIPTION OF SITUATION

DESCRIPTION OF MAIN CHALLENGES

Briefly describe the main issues(s) your city is facing and the main associated challenge(s) (max 500 words):

ONGOING OR ACTED MEASURES

Briefly describe the measures your city has put in place in order to address these issues (max 500 words):

IDENTIFICATION OF THEMATIC(S)

In conformity with the political vision adopted during the Symposium of the 16th World Congress in Québec, identify the thematic which conceptualize the described situation of your city (a maximum of 5 thematic is recommended) and confirm their relevance by linking them with one of the 3 Strategic Axes:

AXIS 1: Inclusive and cohesive cities inspired by their identities and cultural diversity

AXIS 2: Resilient cities boosted by the enhancement of their heritage resources

AXIS 3: "Good governance" which brings a systemic approach to the city.

Thematic	Description and relation to the Strategic Axis
<i>In short words the thematic should specify a transversal and integrated concern related to the city's situation.</i>	<i>Briefly describe the identified thematic and indicate how it relates with one of the 3 Strategic Axes of the Québec Roadmap</i>
1.	
2.	
3.	
4.	
5.	

PRIORITY THEMATIC¹

Indicate which thematic your city will develop in priority within the framework of the Québec Roadmap (the other thematic could be addressed later within other Collaborative Networks).

1.

DESCRIPTION AND RELATION TO THE STRATEGIC AXIS

Further describe the priority thematic and indicate its direct relation with one of the 3 Strategic Axes of the Québec Roadmap (max 300 words):

ACTION PLAN - COLLABORATIVE NETWORK

 OVPM, OWHC, OCPM

Québec Roadmap: Towards a New Urban Project (2022-2024)

I: Conception

- 1.1 Expression of interest
- 1.2 Priority thematic(s)
- 1.3 Collaborative networks

WORKING DOCUMENT

This working document provides guidelines for the deliverables that will complete step 1 of the Québec Roadmap. Pilot cities are asked to prepare an Action Plan to launch the work of the Collaborative Networks and organize collective reflection on the thematic identified.

INTRODUCTION

The creation of Collaborative Networks¹ is the main goal of the first step of the Roadmap. Thanks to these Networks, cities will join forces to further develop the priority Thematics previously defined, through exploration on the field.

This working document explains the procedure to be followed and the methodological tools made available to cities by the General Secretariat.

PROCESS

1. Preparatory meeting

To help Pilot Cities set up their Collaborative Networks, a virtual "preparatory meeting" is organized by the General Secretariat. The aim of this meeting is to ensure a good understanding of the conceptual dimensions of the Thematic presented by a Pilot City and the real issues at stake, and thus to help prepare a targeted Action Plan for the activities of the Collaborative Networks. The discussion, in the form of brainstorming (questions and answers), is therefore an opportunity to clarify the issues raised by the Thematic and to consider the various possible approaches to developing them.

The details of the preparatory meeting are as follows:

- The meeting lasts a maximum of one hour.
- The meeting involves local experts from the pilot city, the Advisory Group (a group of experts advising the General Secretariat on the various stages of the Roadmap) and the General Secretariat.

¹ See Annex 1.1 of Terminology for a definition of "Collaborative networks", the [Guidelines 2: Collaborative networks](#) to find out everything you need to know about how they work.

Concept and objectives

Recall the concept of the thematic (it is advisable to refer to the synthesis sheet published at the end of the Round Table) and specify the objectives pursued by the Collaborative Network (to bring together material and experience, to raise questions of debate, to bring out a common culture, to formulate common orientations) and how to achieve them in the perspective of the Cordoba Symposium.

Presentation of the thematic's challenges

Introduce the topics raised by the thematic to be addressed by the Collaborative Network (it is advisable to refer to the discussion with the Advisory Board during the preparatory meeting).

Schedule and calendar

List actions in chronological order and draw up a provisional timetable, specifying the types of activities planned (international workshop, virtual meetings, face-to-face meetings, study visits, etc.).

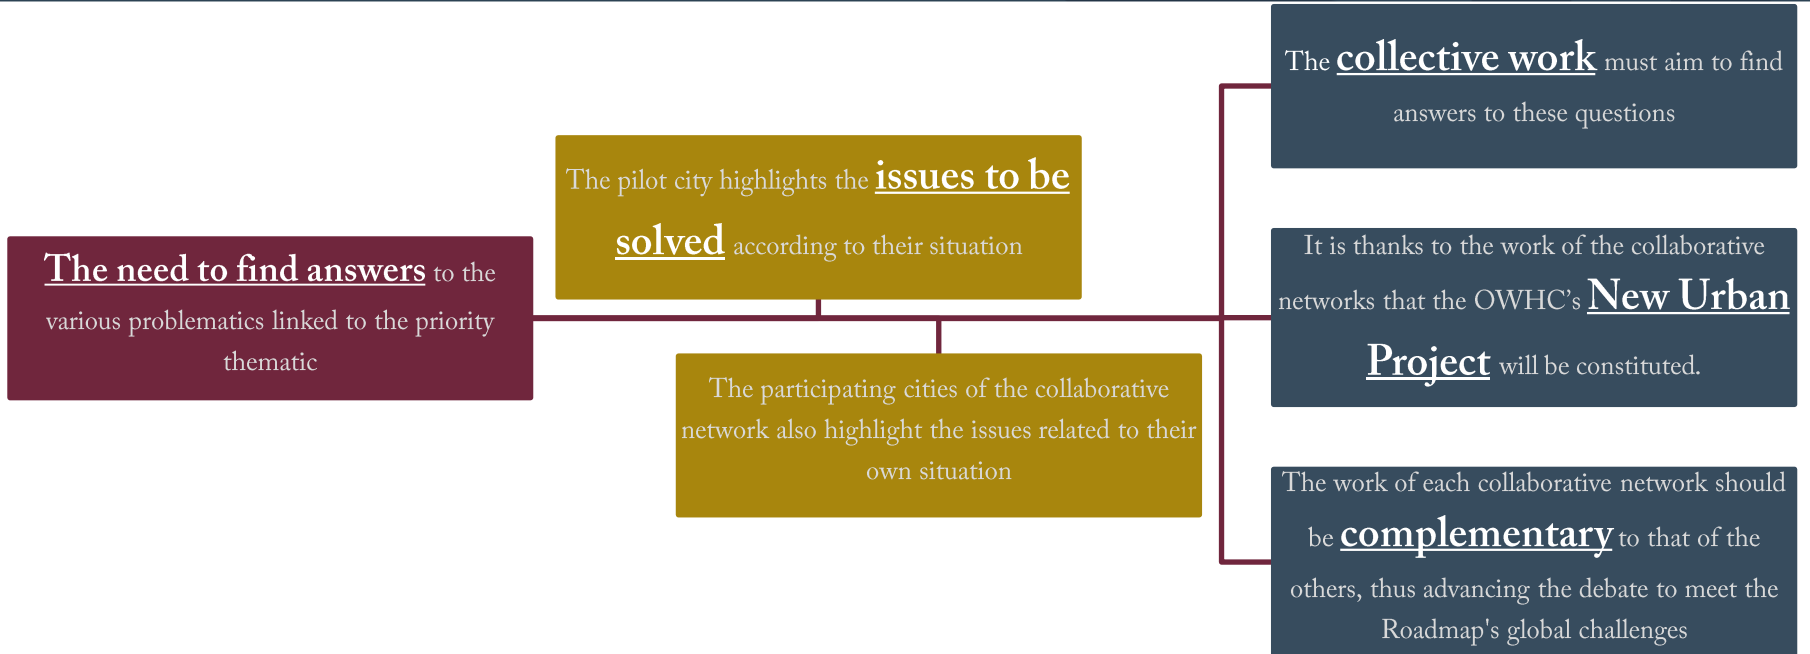

Estimated Budget

Estimate the costs involved in managing the network and implementing its activities (translation, interpretation, equipment, expertise, travel, stays, etc.). Indicate potential sources of funding and the contribution expected from the pilot city and/or its partners, participating cities and the General Secretariat. **This section will not appear in the public version of the Action Plan circulated for participation among OWHC member cities.**

Explain how the collective work will be carried out until the 17th Congress
